Subject: FW: CBD product regulations

Good morning [REDACTED],

Sorry for the delayed reply to your question below. I was out of the office yesterday.

I have followed up with Kentucky's food manufacturing program staff (the program that will oversee the requirements of this administrative regulation) and confirmed that out of state products will be allowed to be sold in Kentucky provided they are labeled in accordance with the regulation. The out of state vendor will not need a KY specific permit.

Please note, the regulation is in the public comment period and not yet finalized.

Let me know if you have any additional questions or need any additional information.

Thank you,

Julie D. Brooks
