## Re: Hemp proposal feedback

Dear Senator Huffman:

As you know, the U.S. Hemp Roundtable is a coalition of dozens of leading companies and organizations committed to safe hemp and CBD products. We advocate for science-driven, equitable, and inclusive law and regulation for hemp industries – including agriculture, oilseed, fiber and extracts, such as CBD – to produce a reliable, sustainable supply chain of responsible commerce.

The Roundtable has enjoyed a long working relationship with you to create and maintain the opportunity for hemp to be grown in Ohio and for hemp products to be sold in retail shops in the state. Hemp products have been sold for years in businesses large and small throughout the state of Ohio. Consumer demand continues to grow and new products, such as hemp-infused beverages, regularly enter the market.

We appreciate that you are seeking input from industry experts like the Roundtable so your work can be informed by our extensive research and experience with these products. As you consider options, we urge you to use caution in creating product bans and eliminating hemp products from store shelves without fully considering the implications and the potential alternatives.

As you know, when the Ohio Senate passed language last December that would ban hemp products containing anything over extremely low limits of THC (.5 mg/serving or 2 mg per package), we immediately raised alarm bells. We noted that the limits in H.B. 86 passed last year would wipe out almost all of the hemp product market in Ohio, not just intoxicating products. Common hemp products such as CBD oils, hemp containing beverages, and even topical hemp products would have been banned under H.B. 86 had it passed.

At that time, we suggested alternatives such as creating an adult-use category of hemp products and age-restricting intoxicating products to address concerns over sales to youth. We realize that many states have struggled to agree on a definition of “intoxicating.” Thus, the Roundtable now supports age restricting any consumable hemp products in conjunction with implementing other regulatory standards as noted below.

Despite our previous discussions focused on regulating adult-use hemp products, we are aware that the Ohio Senate may again be poised to pass another ban on certain products. We maintain our strong opposition to such efforts and oppose any demarcation of “intoxicating” hemp products using the extreme limits included in H.B. 86.

We urge you to consider a regulatory approach to the sale of hemp products in Ohio that preserves consumer choice while addressing policy makers’ stated concerns over safety and youth access. We are supportive of the attached draft bill submitted to you by colleagues at the American Healthy Alternatives Association that addresses a number of concerns expressed by legislators considering hemp regulation.

The proposed bill would include provisions addressing, among other things, stronger enforcement, licensing for manufacturers and sellers, independent testing of hemp products, adequate labeling which prohibits child-enticing images, and age restrictions on the sale of hemp-derived consumable products.

We stand ready to work with the legislature on meaningful hemp product regulation and appropriate age limitations for the sale of certain products. We believe strict bans will only support out-of-state, online, and illicit sales of these products, with no enforceable safety or age requirements, which does nothing to address the issues legislators have cited as the need for new hemp legislation.

We seek to support and maintain Ohio’s hemp industry, most especially Ohio’s retail and small business communities that currently benefit from the sale of hemp products. Those businesses will be harmed and potentially put in jeopardy by a ban on hemp products.

We respectfully submit that a strong regulatory approach to hemp products, without bans, is the best path forward for businesses and consumers alike. Thank you for your consideration and opportunity to comment as you draft legislation.

Sincerely,

Jonathan Miller  
General Counsel

of any franchise, no licensed manufacturer of a hemp-derived 520  
consumable product shall unilaterally terminate or refuse to 521

(D) Any distributor licensed under this chapter may bring 525  
an action in a court of competent jurisdiction against a hemp- 526

distributor for termination, noncontinuance, or substantial 531  
change of a franchise in violation of the provisions of this 532

or, in the case of a person seventeen years of age or younger, 548

purchase, possess, or accept receipt of a hemp-derived 557  
consumable product; 558

(G) Furnish any false information regarding the name, age, 559

derived cannabinoids, including through signage, shelf-talkers, 572  
and stickers on cooler doors. 573

(I) If the person is a manufacturer or distributor, pay to 574  
a retailer any payment, credit, or any other consideration to 575  
induce the retailer to advertise or display a hemp-derived 576  
consumable product in a certain manner in the retailer's 577
